Architecture + Education

PHOTO/VIDEO/AUDIO/MEDIA RELEASE FORM

I hereby acknowledge and agree that as a participant of the **Architecture + Education Program**, my child may be subject to being photographed, videotaped, audio recorded, or presented in the media.

I acknowledge and agree that my child may be accessible for print and broadcast media for program coverage.

I acknowledge and agree that the **Buffalo Architecture Foundation** may document my participation in photos, video and/or audio recordings and may use such documentation for archival purposes and current or future promotions. All such documentation taken by the Buffalo Architecture Foundation is owned by the Buffalo Architecture Foundation and may be used in any standard publicity practice.

I acknowledge and agree that any such documentation does mean that my child may be included in the selected pieces for distribution. I acknowledge and agree that the documentation may be used for publicity in whatever way the Buffalo Architecture Foundation deems appropriate and that I will not be notified when and where the documentation is used.

I acknowledge and agree that as an Architecture + Education program participant, my child may be accessible to other participants for photography, video and audio recordings; that any such materials may be used at the other participants discretion; and that such may be used for exhibit, sale or other intended ways of profit or artistic release.

I acknowledge and agree that I will not be compensated for any such photography, video or audio recordings, for any printed images, and I relinquish all rights to any such documentation bearing my likeness.

Architecture + Education

Dear Parents,

The **Buffalo Architecture Foundation (BAF)** is pleased to inform you that your child's classroom is participating in the 2015 **Architecture + Education (A+E)** program. This is a unique opportunity to engage school-age children with architecture and local professional architects.

At the forefront of BAF's community outreach efforts, the award winning **Architecture + Education** program utilizes architecture to teach students math, science, history, art and technology within standard curriculum, while raising awareness and appreciation of the built and natural environment. Founded in 2000, the program immerses students in multi-disciplinary architectural concepts for several weeks in the classroom and culminates with a public exhibit of the student work. The strength of our program lies in this unique partnership and curriculum developed between teachers and architects integrating architecture with the standard curriculum.

From mid-October to mid-December, professional architects will be working your child's classrooms to implement the architectural curriculum. The professional architects and UB architecture students will lead classroom discussions about architecture and lead hands-on exercises that relate to the topic the class will be focusing on. The students will be creating and building models and drawings that demonstrate the progress of the students' learning. Over the next two months, the project will be documented and published. The program will culminate with an exhibit at CEPA gallery, which will display every student's work, over 500 pieces! The opening will be January 15th 2016. Please mark your calendars and plan to attend this wonderful and inspiring event.

We are excited to provide this innovative program for the Buffalo Public Schools with the generous help of our sponsors. We are confident that our work will positively affect the lives of participating students and will help draw positive attention to the Buffalo Public Schools on State-wide and Nation-wide levels.

For more information, or to view past projects, please feel free to visit our website <http://buffaloarchitecture.org/programs/architecture-education/>.

Sincerely,
